

AVEVA™ Plant SCADA Configuration Course

Unlock the full potential of industrial automation with our Plant SCADA Configuration Course. This comprehensive training program provides a deep dive into the world of Supervisory Control and Data Acquisition (SCADA), focusing on plant configuration to optimize operational control.

Who is suitable?

- Users who are new to Plant SCADA
- Users who have no previous SCADA experience
- Experienced SCADA users who are new to Plant SCADA as a guide to the differences between Plant SCADA and other SCADA products in the market

Let us help plan your training

Physical Session

Virtual Session

On-Site Session

Public Session

Module 1 – Introduction

Module 2 – Project Management

Module 3 – Architecture and Topology

Module 4 – I/O Communications

Module 5 – Equipment

Module 6 – Configuring Mixer Plant

Module 7 – Content Pages

Module 8 – Navigation

Module 9 – Graphic Elements and

Animation

Module 10 – Operator Input

Module 11 – Genies

Module 12 – Popup Pages

Module 13 – Composite Genies

Module 14 – Faceplates

Module 15 – Alarm Configuration

Module 16 – Alarm Management

Module 17 – Cicode

Module 18 – Configuration Data Import
and Export

Module 19 – Devices

Module 20 – Events

Module 21 – Trends

Module 22 – Reports

Module 23 –Advanced Graphics

Module 24 – Security

Appendix A – Industrial Graphics

Appendix B – Additional Exercises

COURSE OUTLINE

COURSE DURATION

4 DAYS

**We strongly believe
in providing
exceptional training
to our customers.**

CTI Resources specializes in helping industrial companies make informed, expedited business decisions through an open and collaborative approach to value-oriented growth in:

- Smart Manufacturing Solutions
- Smart Water Solutions
- SCADA and Telemetry Solutions
- Wireless Communication & Radio Solutions
- Biometrics and Surveillance Solutions
- Training & Consulting
